

**Vote McCONNACHIE**  
**Independent GREEN VOICE**  
for Ecology, Localism, and Democracy  
on Thursday 3rd May 2007

**Alistair McConnachie** is the  
**Independent GREEN VOICE**  
candidate for the **Glasgow Region**.

**WHY ALISTAIR CAN be ELECTED  
to the SCOTTISH PARLIAMENT**

You can send Alistair to the Scottish Parliament, left, because he has a proven track record of success!

At the 2003 election, Alistair stood in the constituency of Kelvin and took an amazing 1,300 votes – which was **6%** of the total vote. If that result is

repeated in each of the 10 constituencies which make up the **Glasgow Region**, then Alistair **will** be elected to the Scottish Parliament!

He only needs a mere **5.6%** of the total vote in the **Glasgow Region**. Your vote counts! **On past performance, making Alistair an MSP is clearly do-able!** You can make this happen by voting **Alistair McConnachie, Independent GREEN VOICE** for the **Glasgow Region**, on the violet-coloured, left-hand side of your ballot paper on Thursday 3rd May!

When elected, this is what Alistair pledges to do for you:

**1 – FIGHT for FREEDOM from DEBT SLAVERY**

Unique to us, and central to our manifesto, is our insight that a key reason for **ecologically destructive and unsustainable economic growth** – and a key reason why our taxes, rents and mortgages are going through the roof and our public services, benefits, savings and pensions are going through the floor – is because money can only come into existence as **a debt** created by the private banking system for its own private profit! It is this debt which drives unsustainable growth and poverty and we campaign to reform this "debt-based money system".

**When elected Alistair pledges to: Introduce a Bill** in the Scottish Parliament to set up **a Scottish Debt Commission** which will study the nature of our debt-based money system, promote understanding of the link between unsustainable growth and poverty and the way money is created as a debt for the profit of the private banking system, and investigate the creation of a publicly-owned, democratic, accountable and not-for-profit Public Investment Bank, to create money debt-free, at no cost to the taxpayer, to fund public projects.

**2 – WORK to ABOLISH PPP** (Public Private Partnerships, the new name for PFI)

These are hugely expensive scams against the taxpayer. So, in addition to the "Debt Commission" Bill, **when elected Alistair pledges to set up a Cross-Party Group** in the Parliament to investigate and promote reform of the debt-based money system and to consider alternative public funding methods based on our debt-free money proposals.
